

HOLOGRAM VARNISH GENUINE GLOBES DESIGN

Technical data & Specification

The R4002 ribbon allows the application of a hologram (an optical variable design) on card in a form of a transparent layer.

Thanks to this ribbon, you add security to your cards, with a dye-diffusion transfer printer. A hologram is not possible to duplicate and simplifies the examination process.

The hologram applied is the following one (Genuine Globes Design):

General Specification

- **Type:** Security ribbon
- **Description:** Hologram Overlay Varnish Ribbon – Genuine Globes Design.
- **Features:** The hologram varnish ribbon is continuous. Its composition allows a good resistance, a protection from exposure to water, an enhanced chemical resistance and an excellent adhesion on card surface.
- **Storage Information:** It is recommended that this product is used within one year. Avoid dust, direct sunlight, high humidity and high temperatures. Do not place near solvent or other chemicals.

Compatibility and printing capacity

- **P/N R4002:** Pebble⁴ Dualys⁵ and Quantum². Up to 350 prints per roll.
- **P/N RVA022XXX :** Zenius. Up to 400 prints per roll.
XXX: The part number may vary according to your region.

Advantages

These card personalisation systems provide flexibility and enable to obtain within a few minutes a finished card-in-hand with hologram. Your cards are protected against forgeries and falsification.

Tested and validated by Evolis R&D and Quality departments, these consumables bring you printing quality and reliability.

Use Evolis High Trust® ribbons to keep off defects and to benefit from high-quality printouts and at an optimal cost-per-card.

Evolis card printers + Evolis High Trust® consumables = the winning combination!
